

Body Care 2024

martiniSPA

Since 1969

50 YEARS OF CURIOSITY AND CONTINUOUS INSIGHTS

- Ours is a dynamic story, made of intuitions, inventions and actions, and generating a restless and indomitable creativity, a continuous engine of successful projects and daily work.
- Since 1969, the year of foundation, MartiniSPA has interpreted new lifestyles with originality, bringing in its collections and its products a constant evolution, inspired by creativity and technological innovation. Today we can say proudly that we are the **leader** and reference point **in the sponges and body care accessories** segment **in Italian market**.
- The growth of the Company continues with the acquisition of **Il Coccio** in 2008, an Italian leading brand in the production of humidifiers and ceramic housewares.

martiniSPA

Since 1969

MARTINI TODAY

MartiniSPA is located near Parma, in the North of Italy.

The headquarter includes production plant, warehouse, logistic center, Marketing, R&D and administration / trading offices, over an area of than 50.000 square meters as total.

MANIFESTO

1. beauty, first of all
2. made in Italy, with wisdom
3. care, handling the world softly
4. environment, green at heart
5. innovation, forward
6. game, let's have fun!
7. curiosity, open eyes
8. sustainable creativity
9. membership, we are MartiniSPA
10. balance, finding balanced solutions

COMPANY CERTIFICATIONS AND SUSTAINABILITY

Constantly striving towards high quality standards, Martini SPA has obtained the certifications relating to the company quality system **ISO 9001** and **BRC Global Standard**.

Looking specifically into the products, the innovative 4039MMM **Compostable mesh sponge** has obtained the **TÜV** certification, recognized as an accredited symbol of quality, safety and sustainability worldwide.

Respecting nature to improve the quality of life for all is a path that MartiniSPA has been cultivating for some time.

Since 2012, we have been using clean energy generated with the solar panels of the production facilities of the MartiniSPA group. Recently we created a forest that is slowly growing around the company: a real breath of fresh air to ensure cleaner air. Among the purposes for the future, MartiniSPA wants to increasingly adopt a green approach in all its business areas. **We believe in circular economy: for us everything can be turned to something else!**

MATERIALS

MartiniSPA offers products made with on a variety of different materials, from polyurethane to recycled materials, ingredients of vegetable origin like cellulose or yarns and fabrics from selected Italian or Mediterranean suppliers.

Suppliers provide qualitative materials and are strategic partners of the Company.

MartiniSPA pride is however the internally developed X-Pand patented production process.

Xpand gives life to unique products that can be enriched with fragrant essences and natural active ingredients with cosmetic properties. Extremely soft sponges, able to expand in water thanks to their superior absorbency.

All the pluses of X-Pand:

- Cold process
- Water-based reactions
- Without the use of chemical agents and solvents harmful to the environment
- Without catalysis
- No blowing agents
- Slow process and low energy impact
- Environment friendly process because it preserves the seabed

BAMBU'

Bambù line finds its inspiration in this versatile plant, which is a natural source of **precious minerals** and **antioxidant enzymes**. Bamboo's fast growth cycle reduces its environmental impact.

Textile products from Bambù line are **incredibly soft**, particularly suitable for **sensitive skin** and granting high moisture absorption.

The exclusive MartiniSPA **Xpand process** allows produce sponges enriched by bamboo extract, also known for its **hydrating, toning and anti-irritant properties**.

ECO MESSAGE

Eco Massage is our face and body collection, designed to be in **harmony with nature**. This line is composed by natural articles, all made of vegetal materials from **natural renewable sources** such as the **cotton, the loofah, the sisal, the cellulose and the wood**.

The **innovative packaging** has been designed to be entirely ecological: it consists of 100% recycled cardboard and PLA.

Made in Mediterranean Area.

BABY AND KIDS

This **extra delicate** line is specifically designed for **babies and young children**, whose delicate skin is five times thinner than adults' skin; for this reason, they need special care and attention.

A collection especially designed for the youngest members of the family, an entire set of **animal-shaped toy sponges** to fill with funny characters your kids' favorite settings: farm, or ocean.

MartiniSPA has used the precious gifts of nature, such as **sea sponges and cellulose**, to create a product able to cleanse safely.

All products are **latex-free** and they are **dermatologically tested**.

OCEANIA

In a certain sense, entering the tub is like taking an off-season bath in the sea: the same kind of pleasure and the same wish of never coming out. Even the shower, generally quicker, gives you a **pleasurable glimpse of summer** every day of the year.

The **sea**, in all its different shades and atmospheres, is the real inspiration at the core of Oceania, a wide collection of sponges offering everything you need to fulfill your daily need of wellness and hygiene.

KONJAC

Konjac, from which the line takes its name, is an Asian plant belonging to the genus *Amorphophallus*, which grows in China, Korea and Japan at high altitudes where the air is purer. It is of the **roots**, composed mainly of water, minerals and glucomannan that Konjac sponges are obtained.

Thanks to its soft and porous structure, the Konjac sponge exerts a **light exfoliation**, which gently eliminates impurities, reactivates the **microcirculation**, re-oxygenating the skin and stimulating the **skin renewal**.
